

Project:

# WASHINGTON MILLS - ORKANGER

LOCATION:

Orkanger

YEAR:

1969 - Ongoing

CLIENT:

Washington Mills

SCOPE/PHASE:

Condition assessment, structural design

PROJECT RESPONSIBLE:

Rune Jerstad (rje@olavolsen.no)

PROJECT DESCRIPTION:

OO have a running engagement in assisting Washington Mills in condition monitoring and structural integrity management.

«Ovnshallen» is an optimized shell-structure exposed to hard chemical and mechanical wear over its lifetime. Non-linear analysis is performed to document capacity and design strengthening and modifications for prolonged designlife of the building adapted to todays use.
