

Project:

# LAUVASTØL DAM

**LOCATION:**

Ulla-Førre

**YEAR:**

2017-2018

**CLIENT:**

Statkraft

**SCOPE/PHASE:**

Reassessment and technical plan

**PROJECT RESPONSIBLE:**

Thomas Konow (thk@olavolsen.no)

**PROJECT DESCRIPTION:**

Reassessment of the safety of dam, spillway and discharge gate at Dam Lauvastøl.

Key figures:

- Consequence Class: 2
- Length: 60 m
- Height: 25 m
- Reservoir volume: 8,3 mill. m<sup>3</sup>
- Type: Concrete plate supported by concrete pillars

Based on the results from the reassessment a technical plan for the preferred solution is developed.
