

Project:

HAVEN – ACCOMODATION JACK-UP

LOCATION:

Norway. Built in Indonesia/Norway

YEAR:

2009-2011

CLIENT:

Master Marine

SCOPE/PHASE:

Detailed engineering, Construction, Hook-up

PROJECT RESPONSIBLE:

Kolbjørn Høyland (kh@olavolsen.no)

PROJECT DESCRIPTION:

Detailed engineering, construction and modification of a jack-up to an accomodation platform for utilization at different sites in the Norwegian Continental Shelf.

Engineers from Dr. techn. Olav Olsen were involved from the early phases of engineering and construction in Singapore and Indonesia, and in other contracts for Owner Furnished Equipment. At later stages of Construction in Norway, OO engineers were responsible for Site Team, Engineering Team, QA/QC Team and for the process of achieving relevant acceptance certificates from Petroleum Safety Authority Norway and Classification Bodies.
